

Dry bulk

## Dry bulk in both Denmark and Sweden

CMP has the largest dry bulk terminals in Western Sweden and Eastern Denmark. Import and export of bulk products are mainly oriented towards the regional market, but some products are also handled for transit.

CMP's market position is based on:

- Central location in the Øresund Region with almost four million consumers
- Good possibilities to handle bulk for transit
- Quays, terminals and available storage areas
- Easy access by road or rail to hinterland
- Modern facilities with water depth for large bulk carriers
- Investment in the new infrastructure and equipment
- Close co-operation with partners and sub-suppliers
- Well-trained and committed staff

Our business philosophy is to provide the best facilities for our customers, and to meet their high demands for fast, effective and flexible operation. CMP has a number of different terminals. Each terminal has its own profile and specialization.

CMP has been approved by "Norske Veritas Quality Management System Standards" in accordance with ISO 9001 and the International Environmental Code ISO 14001.

**CMP has dry bulk terminals in Copenhagen and Malmö. Each terminal has its own profile and specialization.**

**Malmö**

**Swede Harbour**

- Water depth 13.5 m
- Capable of handling fully loaded panamax ships
- Quay length 200 m
- Equipped with three 20 tons stationary cranes, one 64 tons mobile crane, one multidocker CH65 material handler, one 1 Fuchs 350 material handler, conveyor belt
- 100,000 m<sup>2</sup> terminal area
- 16,000 m<sup>2</sup> roofed storage

**Södra Bulkhamnen**

- Water depth - six meters
- Quay length 330 meters
- Served by one 64 tons mobile crane and one Multidocker CH 65 materialhandler and seven frontloaders

**Copenhagen**

**Prøvestenen**

- Water depth 10,5 meters
- Three quays 554 meters
- 180.000 m<sup>2</sup> terminal

**UPS-arealerne**

- Water depth 12 meters
- Two quays 250 and 400 meters
