- 2) Port security fee is to be paid for each arriving, respectively departing passenger and will be charged all ships carrying paying passengers. This also includes ferry routes, cruise ships, tour vessels, harbour tour boats - or the like.
- 3) Ships not carrying goods or passengers must pay subject to the length of the ship. Minimum charge is 50 meters irrespective of length.
- 4) Port security fee must be paid for laid-up ships for every 14 days started. Minimum charge is 50 meters irrespective of length.
- 5) Ships, exclusively calling Copenhagen for sampling, changing of crew, medical assistance, disembarkation of patients, shipwrecked persons, changing of spare parts, repair, seeking port of refuge, bunkering, taking in supplies, or the like must pay port security fee. Minimum charge is 50 meters irrespective of length.
- 6) Ships, not approved according to ISPS, calling ISPS approved quays, is payable for double port security fee.
- 7) At an elevated security level, CMP may implement additional security fees, based on the actual costs for the applied security level.

Maritime services

- 1) Water supplies in the period 15.00 to 07.00 will in addition to the list price of water be billed the actual labor hours for crews with a minimum of 6 overtime hours. Water supplied during this time must be ordered 36 hours in advance of arrival. Cancellation less than 24 hours before arrival, will trigger charges of minimum of 6 working hours.
- 2) Waste cost are included in the GT fee due to 'no-special-fee' regulation, but only for ships paying port dues. The part of a ship's waste that is related to its operation is collected for "no special fee" provided the amount of such waste is reasonable with respect to both the size of the ship and its normal voyage. All waste above is charged extra. For further details see CMP's Waste management plan (Copenhagen): [CMP Waste Management Plan \(cmpport.com\)](https://www.cmpport.com/CMP-Waste-Management-Plan)

Copenhagen

General terms and conditions

Cruise Shore Power Facility

1. The Shore Power Facility

1.1 The Shore Power Facility is currently a 20 MVA facility with connection 5 points at the cruise ship quays at Langelinie (2) and Ocean Quay (3).

1.2 CMP offers use of the Shore Power Facility at Langelinie and Océankaj for fees. The fees are based on a Shore Power Fee, and a Plug-in incentive that applies if shore power is used minimum 65% of time at berth.

Conditions for granting Plug-In Incentive:

1. Eligibility of Shore Power Equipment: The vessel must be equipped to receive shore power. If the vessel is not equipped accordingly, no plug-in incentive shall be granted.
2. Requirement to Request Shore Power: The vessel must have submitted a request to use shore power. In the absence of such a request, no plug-in incentive shall be granted.
3. Availability of Shore Power from CMP:
 - If CMP is unable to supply shore power despite a valid request, the plug-in incentive shall be granted.
 - If shore power is available and has been used by the vessel, the plug-in incentive shall also be granted. However, if shore power was available but not used, no plug-in incentive shall apply.

A separate fee for electricity will be charged based on a pass through of costs. The cost consist e.g. of delivered power according to CMP's electricity meter, market spot price, market tariffs, tax and power losses from transformation within the shore power system.

Cruise Shore Power Facility (continue)

Power consumption will be charged separately based on market price, additional tariffs, and associated costs. The overall monthly cost of power consumption will be distributed according to each vessel's individual usage. Consequently, electricity consumption fee will be based on CMP's average monthly electricity cost, not real-time prices.

1.3 Shore power needs to be booked separately, when booking a berth in Copenhagen.

However, CMP reserves the right not to offer shore power due to limited shore power capacity or operational conditions.

Priority guidelines are based on following:

- CMP prioritize shore power for ships where the estimated CO₂ reduction is greatest.
- Ships berthed at Langelinie have priority to use the Shore Power Facility.

Disregard the above-mentioned guidelines, CMP reserves the right to prioritize the connection of ships to the Shore Power Facility based on an overall assessment.

2. Obligations of the Cruise Ship

2.1 Cruise ships are entitled, but not obliged, to use shore power when docking at Langelinie or Ocean Quay, provided that the Shore Power Facility is available on the requested time.

2.2 It is a condition for using the Shore Power Facility that the ship is compatible with the Shore Power Facility.

2.3 Customers wishing to use the Shore Power Facility for cruise ships are obliged to provide CMP with all necessary information relevant to the use of the Shore Power Facility.

Copenhagen

General terms and conditions

Cruise Shore Power Facility (continue)

2.4 Customers wishing to use the Shore Power Facility for cruise ships must submit a written request to CMP at 3 weeks before the ship's *first call* and no later than 72 hours before the ship's *returning calls*. The request must include required information about the ship and the period during which the shore power facility is requested to be used.

2.5 Late ordering or cancellations.

Regarding First calls in CMP:

- If the 3-week deadline for a first-time arrival is not met, CMP reserves the right to charge a late order fee and deny access to shore power.
- If cancelled after 3-week deadline: A cancellation fee will be applied

Regarding Returning calls within 12 months:

- If shore power is ordered less than 72 hours before arrival, a late order fee will apply if the shore power service is available.
- If shore power is cancelled less than 72 hours before arrival, cancellation fee will apply.

3. Use of the Shore Power Facility

3.1 The use of the Shore Power Facility may be interrupted. E.g. if it is necessary, to perform infrastructure work required for a safe operation on the facility, or if there are technical problems, preventing the safe or adequate continuation of the operation of the Shore Power Facility.

3.2 CMP or collaborative partner on behalf of CMP may request to inspect the ship's technology that enables a shore power connection before the connection is established.

3.3 Upon agreement of the use of shore power, CMP is not obliged to make the Shore Power Facility available, if CMP is prevented from doing so, due to force majeure or circumstances beyond CMP's control.

Cruise Shore Power Facility (continue)

3.4 The use of the Shore Power Facility complies with CMP's current Pricelist and term and conditions.

3.5 The Customer is obliged to report any damage to the Shore Power Facility to CMP without undue delay.

4 Payment for the Use of the Shore Power Facility

4.1 Payment for the use of the Shore Power Facility is specified in CMP's current Pricelist and terms and conditions.

5. Liability

5.1 Upon the use of the Shore Power facility, CMP is not liable for any power failures, or damages to the ship which is not caused by CMP's negligent actions or omissions in respect of the use of the Shore Power Facility.

5.2 When using the Shore Power Facility, the Customer is responsible for damage to the Shore Power Facility, the port's equipment, etc., if the damage is caused by the Customer's/ship's actions.

5.3 To the extent that CMP is held liable to third parties for damage caused by the ship's use of the shore power facility, the Customer is obliged to indemnify CMP for any claim that CMP may be required to pay to third parties, including interests and costs, provided that the damage is caused by the Customer.

6. Other Conditions

6.1 All other conditions are regulated by CMP's current Price List & Terms and conditions, and DSHAB 2024

Malmö

General terms and conditions

Goods and cargo handling

- 1) Generally offered prices shall be applicable to the handling of cargo for modern bulk and general-cargo carriers with large hatches, minimum overhang and boxed holds. Such vessels are assumed to be equipped with hatches large enough to enable almost all loading and unloading to be carried out vertically. The 'tween-deck hatches' should be flushed to enable a truck to be driven between the hatch opening and 'tween-deck spaces without difficulty. For other types of carrier, CMP reserves the right to make a supplementary charge based on the rate of productivity achieved during actual loading or unloading of the vessel.
- 2) In addition, CMP reserves the right to charge any extra costs as may be found reasonable should cargo-handling, for reasons beyond CMP's control, proceed more slowly than anticipated or be in any way out of the ordinary, e.g., stowage in holds unsuitable for the goods to be loaded or which are rendered difficult of access because of cargo already aboard.

Bulk cargo

- 3) To avoid damage during loading or unloading, railings, hatches, etc., must be removed in advance. CMP shall not be held responsible in the event of damage caused by failure to remove railings and hatches where appropriate.
- 4) The prices offered for unloading with crane and grapples shall apply on condition that the vessel is suitable for unloading by this method - the vessel shall be provided with hatches large enough to permit the free passage of the fully extended grapples in the crosswise position, and there may be no beams or stanchions inside the hold that could represent an obstacle to unloading. In addition, the grapples must always be able to operate on a smooth floor. Failure to comply with these conditions will entail charges in proportion to the extra work thereby occasioned. Cleaning between deep frames will be charged extra.

Goods and cargo handling (continued)

Loading plans and booking notes

- 5) To facilitate the planning necessary for loading/unloading, the vessel or its agent shall submit booking notes and loading plans to CMP's traffic control office in plenty of time before the vessel is due.

Tally

- 6) If the cargo requires checking as it is loaded or unloaded and a tally note must be drawn up, the work thereby occasioned will be charged by the hour.

Right to order overtime from customer

- 7) CMP shall be entitled to order overtime wherever found necessary without being required to pay compensation for other operations carried out in conjunction with such overtime, e.g. by crew members, forwarding agents, etc.

Safety regulations

- 8) Vessels shall follow the instructions of the Swedish Work Environment Authority for the loading and unloading of cargo vessels. The ship shall provide all necessary safety devices, such as gangways, ladders, anti-fall railings for use when the hatches are open, and other safety equipment.

All work to follow AFS 2001:9, Harbour work (Arbetsmiljöverkets författningssamling).
